Dear Stakeholder,

Re: Achievement of the Investors in People Standard

The Wholesale and Retail SETA is proud to announce that it has been recognised as an Investor in People by the Investors in People South Africa. The Investors in People is one of the internationally recognised and respected standards of good practice which recognises organisations that prioritise people development.

The current version of the Standard is very rigorous and expects an organisation to be performing at a very high level in terms of its people development. It is with great pleasure to announce that the W&RSETA met all the evidence requirements in the assessment that took place in May 2008.

We also realise that achieving the Standard is not a destination, rather the beginning of a long journey of continuous improvement that lies ahead of us.

The Wholesale and Retail SETA is passionate about people development.

Yours in skills development,

Joel Dikgole
