# RESEARCH PROBLEM

## Initial Brief

Choose a specific skill in the SETA framework

## Updated Focus

Addresses a broader challenge facing SMEs  
in the data-driven economy

# RESEARCH QUESTION

---

“What are the potential benefits for SMEs in the Wholesale & Retail sector to effectively leverage big data analytics?”

---

# LITERATURE REVIEW – KEY HIGHLIGHTS

## Missed Opportunities:

- Many South African SMEs in the retail sector are not leveraging data analytics effectively, risking competitiveness (Makhele, 2018; Chong, 2018; Nejkamp, 2021).

## Digital Growth:

- Significant global increase in internet users and online shopping presents an opportunity for SMEs to harness digital data for competitive advantage (Gartner Digital Markets, 2024).

## Transformative Potential:

- Data analytics can enhance SME performance and decision-making (Chong, 2018; Nejkamp, 2021; Maroufkhani et al., 2021).

## Effective Data Management:

- Success depends on strong data management strategies, which lead to improved business resilience and performance (Carosella et al., 2022; Moonen et al., 2019).

## Challenges:

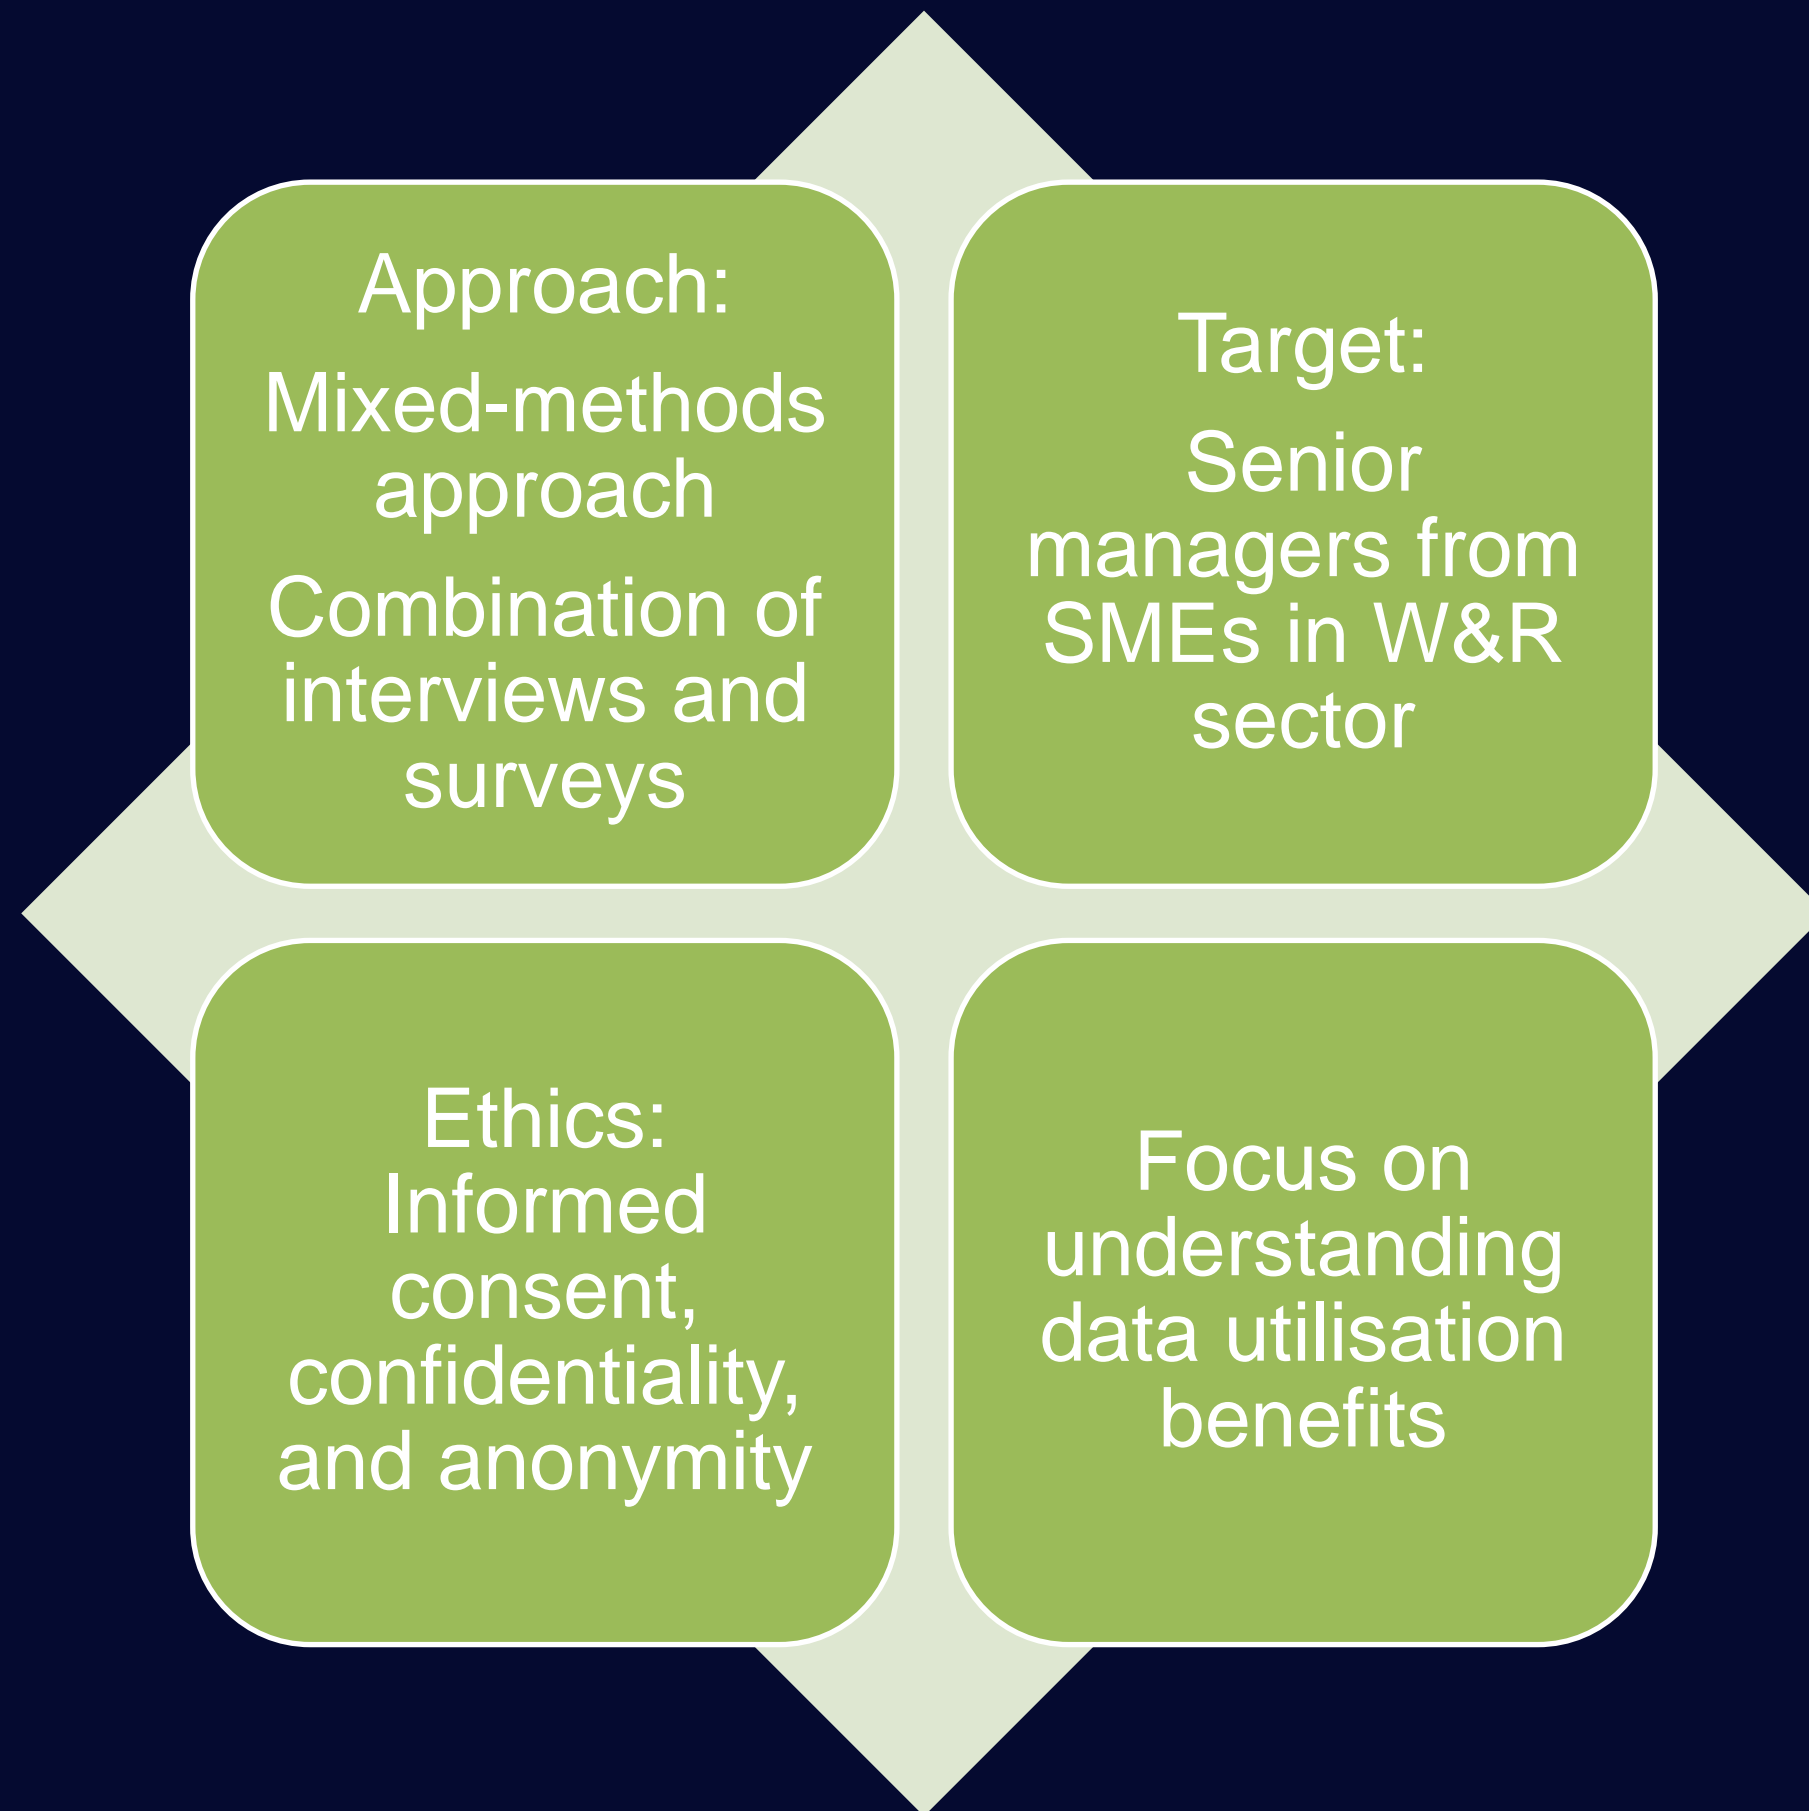

- 64% of SMEs struggle to use their data effectively; 74% fail to maximize the value from data investments (Data Unleashed, 2023).

## Competitive Disadvantage:

- SMEs are lagging behind larger firms in big data adoption (Coleman et al., 2016; IDC, 2021).

# METHODOLOGY

# COUNTRY COMPARISON & KEY LEVERS

## IMPORTANCE OF DATA ANALYTICS

**46%**

recognise the importance of data in decision-making processes

**60%**

acknowledge they do not always have time to review data monthly

## IMPLEMENTATION CHALLENGES

**48%**

express they do not understand how to use data effectively

## RESOURCE LIMITATIONS

- Lack of dedicated personnel
- Preference to upskill existing staff over hiring new talent to maximize resources

## FINANCIAL CONSTRAINTS

Uncertainty about the costs associated the use of data

## COMPETITIVE DISADVANTAGES

SMEs feel outmatched by larger corporations, affecting confidence and stifling potential

# FINDINGS

**We're not just talking about ideas — we're offering a real, practical solution that addresses the core needs of SMEs.**

Empowering Small Businesses with Big Data Solutions

# SME'S FOREVER FORUM

- Are you an SME in the Wholesale & Retail sector?
- Do you have business data and do not know how to leverage it?
- In an ever-changing data space do you need a friend to help you along the way?

## YOUR ANSWER

- ✓ Accredited data focused modules
- ✓ Networking
- ✓ Sharing of ideas

CONTACT US  
**123-456-7890**

## ONCE OFF

**Once off Registration Fee of R200** gets you access to 3 accredited data centric modules

## MONTHLY

**Continued Monthly Subscription of R500** unlocks access to all the features BizBoost has to offer

# SOLUTION

Addressing constraints through education and affordable platforms

BizBoost Offering:

1. Accredited online short courses in data analytics
2. Networking and resource libraries
3. Seminars

# TIER 1 - TRAINING MODULES

Module 1: Basics of data & data-driven culture within SMEs

Module 2: Inventory optimisation & customer insights

Module 3: Practical workshops & interacting with data tools

# TIER 2 – FORUM BASED OPPORTUNITIES

Networking opportunities – Events : monthly seminars, webinars,  
and Q&A forums with experts

Newsletters

Library of resources

\*In addition to Tier 1

# AFFORDABILITY

## TIER 1

Once-off registration  
fee for annual access  
to the platform's  
educational videos  
(3 modules)

R200 (once off)

## TIER 2

Monthly subscription  
for premium access to  
networking events,  
workshops, and all  
additional resources

R200 (once off) + R500  
(monthly)

# TOTAL BUDGET FOR IMPLEMENTATION

	Expected Budget for implementation
<b>Capital expenditure</b>	
Training Video Development	500,000.00
Web design & Maintenance	300,000.00
Cloud internal hosting	30,000.00
Cloud usage	15,000.00
Payment Gateway	100,000.00
Developer & Technical Staff Laptops	80,000.00
Branding	400,000.00
<b>Total Capital Expenditure</b>	<b>1,425,000.00</b>

# FORECAST

## YEAR 1:

Registration with correct target marking 300  
registrations with 75% turning into  
subscribers

## YEAR 1 REVENUE

R60k and opex R500k\*

## YEAR 2:

Additional 350 registrations with 60% turning  
into subscribers

## YEAR 2 REVENUE

R1.3mil and opex R1.2\*

\*Opex includes employee costs, developer costs and data analysts on retainer, regulatory costs, seminar costs, commissions
