Questions	Answers
Good day, Sir. I would just like to ask, is there any other specification in terms of the the layout of the office space besides the boardroom?	OK, now there is no other specification except for the boardroom. The fit out of the office will then be discussed with the successful bidder in terms of the SETA requirements.
So how many people are you expecting in the? Is it going to be like a daily thing or are you going to have walking? I just want to clarify that.	So in terms of feed that will come through the offices, so staff, OK, so just to highlight our staff do work hybrid. So when I mean hybrid is we alternate in terms of three days at home this week, two days at the office, next week it'll be two days, two days at home, three days at the office.
The 280 squares that you guys have in the document, is this a cross little area or is this the yeah, can you just explain that please?	It's the actual office require office space. That's the it's what we will occupy.
