**ANNEXURE E: BUILDING GRADINGS**

<b>OFFICE GRADE</b>	<b>DESCRIPTION</b>
<b>Prime Grade</b>	Top quality, modern space. Prime buildings are often considered iconic and a flagship in its market. Essential features include high security- both manned and electronic, the latest generation of building services, ample parking and a prestigious lobby finish. High ceiling heights, flexible floorplates and column spacing. To be considered Prime-grade, an Office should be 4-star Green Certified or in the absence of a formal rating include equivalent environmental initiatives which could include zoned lighting, energy-efficient building services and systems, water-efficient fixtures, rainwater harvesting, water-wise landscaping, and low VOC interior finishes.
<b>A-Grade</b>	High quality properties providing good access and are professionally managed with continued above average maintenance. High quality modern finishes, air conditioning, adequate on-site parking. Clearly articulated entrance, lobby with clear circulation. High ceiling heights, flexible floorplates likely.
<b>B-Grade</b>	Generally older buildings, but accommodation and finishes are close to modern standards because of refurbishments and renovation from time to time. Air conditioning and on-site parking or bays dedicated to the building is essential. Minimum ceiling height, less flexible floorplates. Modest landscaping with minimal exterior space.
<b>C-Grade</b>	Buildings typically in fair condition but with older style finishes, services and building systems. Purely functional space with infrastructure generally limited. May or may not be air-conditioned or have on-site parking. Minimal or no lobby, landscaping or exterior space. Unarticulated entrance.
